

FPA Australia Members registered in Victoria with the Building Practitioners Board, willing to provide advice regarding private bushfire shelters

The following Members of FPA Australia are registered in Victoria with the Building Practitioners Board as a Registered Building Practitioner specialising in fire safety engineering and are willing to provide advice to the public regarding private bushfire shelters (bunkers).

This listing has been produced in response to an announcement made by the Planning Minister for Victoria on Thursday 11 November 09, that all private bushfire shelters or bunkers sold and constructed in Victoria will now need a Building Permit and potentially a Planning Permit as well.

The Victorian Building Commission is also encouraging any individual who has installed a private bushfire shelter or bunker prior to 11 November 09 to engage a Registered Fire Safety Engineer to inspect the shelter/bunker and to ensure that it is suitable and fit for the purpose of providing refuge in the event of a bushfire. The following members hold the relevant registration.

Members are listed in order of response.
