| e. you have contravened a condition of a Fire Protection Industry permit | <input type="radio"/> | <input type="radio"/> |
| f. you have held a Fire Protection Industry permit that was cancelled | <input type="radio"/> | <input type="radio"/> |

If you answered YES to any of the above questions, please give details in a separate attachment. Answering YES to any of the above will not necessarily prevent you from receiving authorisation.

Privacy Information

The information provided in this application will be used to assess your ability to hold a Halon Special Permit in Australia. The lawful authority for the collection of this information is the Ozone Protection and Synthetic Greenhouse Gas Management Act 1989. The information may be disclosed to the federal, state and territorial government agencies and to our contract service providers for the stated purpose only but will not be disclosed to any party without the applicant's permission.

Water, Heritage and the Arts

Suitability Questionnaire

You are required under regulation 341 to state whether:

YES NO

- (a) use of the halon is necessary to protect human life or to operate equipment critical to the community and there is no alternative to the use of the halon that is practicable, safe, reasonably priced, and likely to result in less damage to the environment; and
- (b) you have business premises equipped and operating so as to be able to handle and prevent avoidable emissions of any extinguishing agent and are able to ensure that extinguishing agents are handled only by persons who have the necessary training and experience and are licensed to do so.

Any Authorisation is granted subject to conditions required by the Board that the holder:

1. keeps up-to-date records showing the amounts of halons acquired, disposed of and recovered from any source by the holder during each quarter
2. within 14 days after receiving a request in writing by the Fire Protection Industry (ODS &SGG) Board, sends to the Board copies of records mentioned above
3. has equipment that is adequate for the holder's activities including one or more of the following: leak detectors (unless the holder has leak detection procedures in place), vacuum pumps, recovery units
4. maintains, so that it operates correctly, each item of the holder's equipment that is necessary to prevent avoidable emissions of any extinguishing agent
5. at least every quarter, checks any halon extinguishing agent container at the premises for leaks
6. ensures that any container filled by the holder meets AS/NZS 2030.1
7. puts into effect a risk management plan for the premises as approved by the Fire Protection Industry (ODS &SGG) Board at the time of the holder's application for authorisation
8. ensures that, at the premises, any extinguishing agent is handled in accordance with each applicable standard set out in Table 326 of the Regulations
9. ensures that destruction of any halon extinguishing agent is carried out only by the holder of an approval given by the Minister under regulation 306
10. must accept any surrendered halon that has been used, or appears to be intended for use in, fire protection equipment
