# Register of Bushfire Planning and Design Accredited Practitioners

## Accreditation Categories

### BPAD-Level 1

BPAD Level 1 Practitioners are accredited to provide services that are limited to:

1. Determining the appropriate Bushfire Attack Level (BAL) using Method 1 (simplified method) of Australian Standard AS 3959-2009.
2. Providing a report or advice that a building or proposed building is consistent with the bushfire construction provisions as specified in Australian Standard AS 3959-2009.

### BPAD-Level 2

BPAD Level 2 Practitioners are accredited to provide services that are limited to:

1. The application of the prescribed requirements of:
  - a) the relevant Planning System
  - b) the relevant building and construction regulations; and
  - c) Australian Standard AS3959 with the exception that only Method 1 may be used to ascertain the Bushfire Attack Level.
2. The duties and activities specified for BPAD-Level 1.

### BPAD-Level 3

BPAD Level 3 Practitioners are accredited to provide services that rely on:

1. The application of the prescribed requirements of:
  - a) the relevant Planning System
  - b) the relevant building and construction regulations; and
  - c) Australian Standard AS 3959-2009 including the use of both Method 1 and Method 2 to ascertain the Bushfire Attack Level.
2. The development of alternative design solutions to address all requirements of the relevant Planning System
3. The development of alternative solutions to those prescribed in Australian Standard AS 3959-2009 for the construction of buildings to address the performance requirements of the Building Code of Australia in accordance with regulatory requirements.
4. The duties and activities specified for BPAD-Level 1 and BPAD-Level 2.
